## BIOSILICONE

GELATINE - BASED

RENEWABLE - (COMPOSTABLE)

REUSABLE

www.amsterdams.com

### INGREDIENTS & TOOLS:

- Gelatine powder - 12 g
- Glycerine - 12 g
- Water - 60 g/ml
- 1 tsp hibiscus tea

Tools: pot, spoon, mold, scale, cooker

### THIS IS A VARIATION ON:

Biosilicone by Cecilia Raspanti, and Margaret Dunne. Variations: added the max amount of glycerine (up to 50/50 ratio with gelatine), added hibiscus tea as colorant

### MAKING PROCEDURE:

- Bring water to the boil with the hibiscus tea.
- Remove tea when water has desired color
- Add gelatine and glycerine
- Stir slowly, until dissolved thick at 60-80 Celcius
- Slowly cast into the mold
- If possible: let dry up to 10 days without releasing (min 3 days)
- Trim, keep dry

Suitable for composting, re-use by melting and recasting.
