amsterdamaas.com

### INGREDIENTS & TOOLS:

- Dextrin - 3.5 grams
- Sawdust - 3.5 grams
- Water - 3.5 grams
- Knauff gypsum - 20 grams
- Dirt - 5 grams
- Cinnamon - 5 grams

Tools: stove, measuring cup, scale, mold

### THIS IS A VARIATION ON:

Sawdust | dextrin Saw05  
by Tamara Schwarz via Materiom.org

I have added the gypsum, dirt and cinnamon to model it into a rock

### MAKING PROCEDURE:

- Weigh the dextrin, mix with the water
- Add to pot and mix until thickened (keep below boiling point)
- Store in a sealed tupperware until cooled to room temp
- Mix in the sawdust
- Let it dry
- Cover with gypsum
- Paint with a dye made of dirt & cinnamon dissolved in water
