1. What did you like about this workshop?

7 antwoorden

Seeing how we are all connected through Sustainable Development Goals.

The mindmaps are amazing

easy way to understand complex form of international standards

Being with other equally minded people in a meeting.

it was very well organized and informative and gave us the tools to continue the work, and also the connection with others

I liked the initial presentation and the break out room discussions were very interesting. It was nice to hear from other participants focusing on SDG goals and not just on facilities

Very clear, well organized, friendly, inclusive

2. How can we make this workshop even better?

6 antwoorden

Not all of the Zoom technology worked.

maybe transform make a form for compile personal workbook

An online whiteboard will help to do the post-it type exercises can work well.

maybe more time to give feedback on some of our goals

Perhaps have a document with the links to share in advance

When there is something to read or prepare in advance, make it more clear in the invite

3. What other suggestions do you have?

4 antwoorden

Keep up the good work.

Please do not force us to have things printed. Printers do not always work.

continue please this gives a needed shared content and purpose to the fablab community

Make the SDG goals a focus on the .io forum. Also encourage labs to be more specific with their subgoals.
